The world tour

This is not the most extreme tour on the planet. But it is not supposed to be, as this would be contrary to our understanding of motorcycle travel. The WORLD TOUR is not an off-road adventure with extremely challenging routes, tents instead of hotels, or riders that need to be able to completely take apart their motorcycles and then assemble them again.

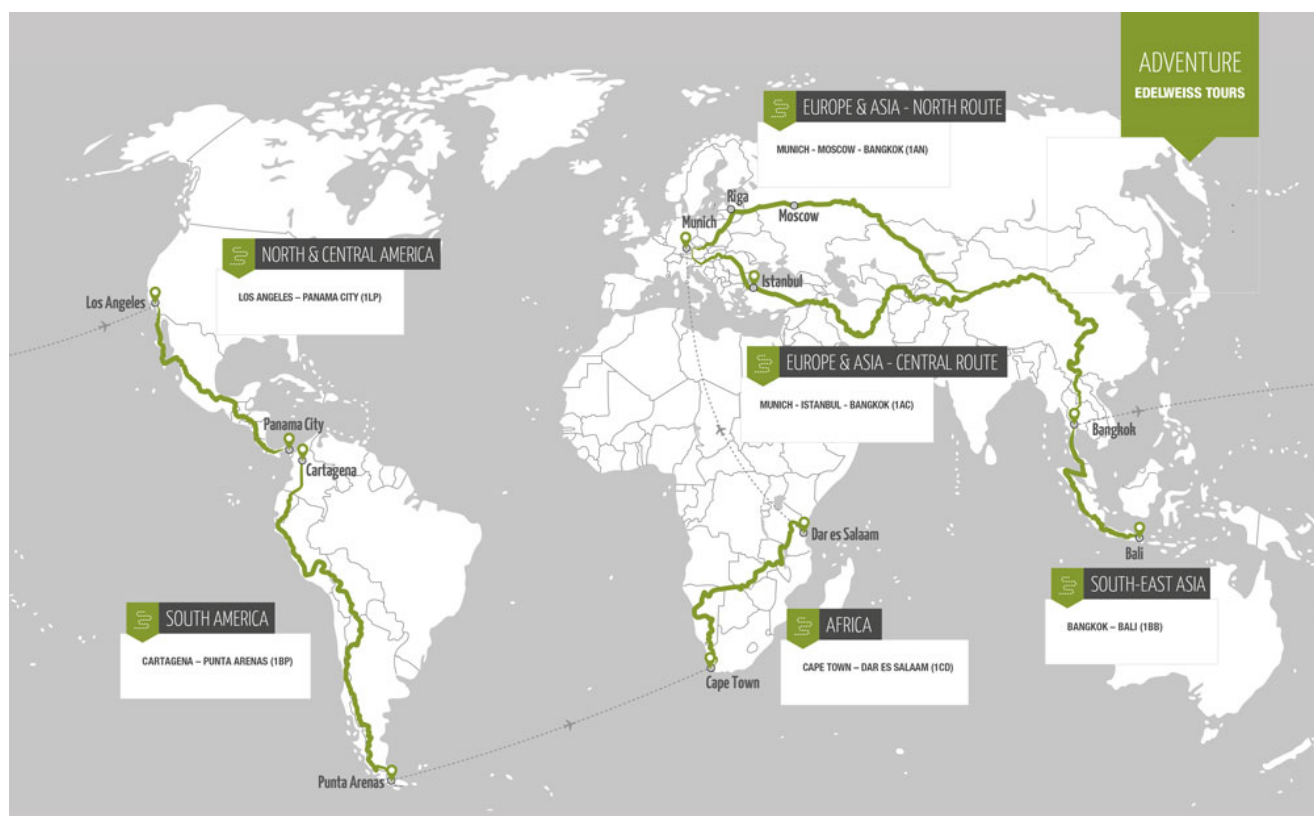

We created the Edelweiss WORLD TOUR with two main goals. The first was to create an adventure for our participants that would be very complicated and time consuming if done individually. The second goal was to be on the road without lacking all those things that turn an adventure into a holiday. This applies both to supplying a certain amount of comfort during overnight stays, good meals as well as the quality of the roads we have chosen for this tour.
